

A motor caravan from such prestigious Companies as Auto-Sleepers and Volkswagen must indeed be something special, and the new Trident sets the standard for others to follow.

The interior epitomizes the style and attention to detail for which Auto-Sleepers is renowned. Colour coordinated fabrics are complemented by hand crafted cabinet work; indeed the interior spells luxury. The rear seat, underneath which is a large storage drawer, is fitted with a mechanism enabling it to convert quickly into a double bed. Above, the roof bed is so designed that it can also be used as a variable position storage locker.

The versatility and ambience of the Trident is further enhanced with roller type flyscreens, thermally lined curtains, and roof ventilator with night blind. For those seeking further luxury, a blown air

# Trident

heating system and Carver Cascade water heater with mains hook-up facility are available as options.

Add to this a cooker/grill, Electrolux gas/12v/240v refrigerator, chinaware for four, chemical toilet, mains hook-up, a high level of insulation, stainless steel roof rack and ladder and you'll see the new Trident is indeed something rather special.

Can you afford to be without one?

BRITAIN'S LEADING MANUFACTURER OF QUALITY MOTOR CARAVANS
