Trooper

The combination of Volkswagen's proven quality, allied to Auto-Sleepers' tradition of bespoke Cotswold craftsmanship, has given birth to the new Trooper.

Compact, yet spacious, and with a specification that leaves little to be desired, the Trooper offers the versatility of both a family car and a true home from home.

Look inside and you'll experience luxury. Colour coordinated fabrics, complemented by handcrafted cabinetwork give the style and ambience that you have been seeking. The rear seat, whilst providing a sumptuous dinette area, quickly converts into a large double bed.

But that's not all .... the versatility of the Trooper is yet further enhanced with roller type flyscreens and thermally lined curtains. For those seeking added luxury, a Carver Cascade water heater with mains hook-up and a blown air heating system are also available as options.

To complete this luxurious specification is the cooker/grill, Electrolux gas/12v/240v refrigerator, chinaware for four, mains hook-up and even a chemical toilet. All this in a vehicle of less than 7 feet high when the roof is closed and you really do have something special.

Luxury motorcaravanning begins here!
